To Whom it May Concern,

I am writing this letter to you regarding Dawson Construction Inc. I have personally worked with Dawson Construction on multiple projects over the past five years and I have always been impressed by their professionalism and willingness to work as a partner throughout the entire construction process. Our projects have always been difficult remodels, usually adjacent to occupied areas and Dawson has always been accommodating to the needs of both our patients and employees. All the while, maintaining focus on both the project budget and project schedule.

Our projects have ranged from multi-million dollar additions to a few thousand dollar interior renovations. Regardless of the size of the projects, I always get the same professional attention to the project. I feel that with Dawson you get the best of both worlds, the attention of a smaller contractor with the capability of large multi-state general contractor. It is nice to know that you can call the owner of the company that you are dealing with get his complete and full attention.

Dawson Construction has not only been a great partner on various construction projects, they are also a very generous participant in various St. Joseph Hospital Foundation projects.

Without hesitation, I highly recommend Dawson Construction to any hospital considering a construction project.

Sincerely,

Ben Coon
Capital Projects Project Manager
