Re: Public Works Project PW466 Bond Hall Renovation

Dear Pete:

I want to let you know how much we appreciate the effort put in by Dawson Construction on our Bond Hall Renovation project. This was a complicated multiphase project in the middle of our campus and with classes going on within the building for 6 of the 9 months of construction. If that was not enough the University added scope to your contract and you still completed the project ahead of schedule.

Much of the success of the project can be attributed to the hard work put in by Jim Quick, project manager, and Ken Kuiken, superintendent. They were responsive to issues brought up by the University and worked well with the building occupants.

I look forward to working with you and your team on future projects. Please feel free to share this letter as a reference.

Sincerely,

Ed Simpson
Planning Manager
